

First In Math® Online Program

FAMILY LINK™ Parental Involvement Component*

- Involves parents in math education.
- Requires minimal time investment for educators.

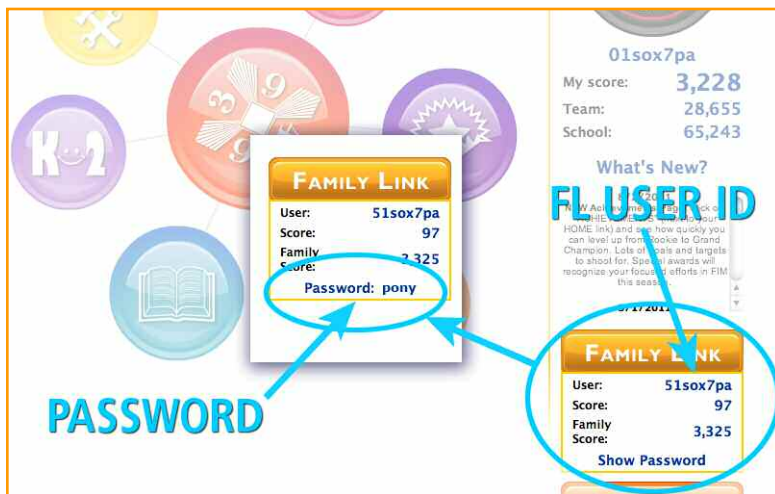

Family Link™ gives student's family members full access to the First In Math® Online Program!*

Students will be provided with one FAMILY LINK™ User ID and Password to be given to Mom, Dad or sibling, so that families can sample this unique, online math supplement.

Print out our informational Parents Flyer from your Team Leader Home Page and use it to encourage parents to visit the site. The flyer has space for the student to write in the FAMILY LINK User ID, and also reminds parents that if they are "stuck" to ask their child for help—it's a great way to encourage communication and actually helps students learn and gain confidence.

Easy distribution

1. Family Member's User ID/Password are displayed on Student Home Page.
2. Student writes down the Family Link User ID/Password combo and gives it to parent or other family member.

Family Link data is displayed on the Student's Home Page.

3. The family member can log at www.firstinmath.com, and use the site as a student would. The Family Member's sticker count records on the student Player Home Page. Combined "Family" total is also shown, that reflects the student's sticker count + the Family Member sticker count. *Family Member stickers do not count toward a Players Individual FIM Ranking.*

* The Family Link™ feature is not part of the standard FIM subscription. EARN Family Link™ access by earning at least 400 Stickers Per Student!
